PROSPECTUS OF THE "NATIONAL MON-UMENT."

A weekly journal to be published in Washington, under the sunction of the Washington National Monument Society.

JAMES C. PICKETT, EDITOR AND PUBLISHER.

Monument Society.

JAMES C. PICKETT, EDITOR AND PUBLISHER.

The Monument is intended to be aliterary, agricultural, and miscellaneous paper. It will contain selections of the literature of the day—the best that can be found in American and English publications: interesting scientific articles, embracing mechanics; foreign and domestic news; a synopsis of the proceedings of Congress, and every thing that such a journal might be expected to contain, with the exception of party politics, which will be at all times most rigorously excluded.

The Monument will be published for the experses and the soic purpose of aiding in the crection of the noble column now rising on the banks of the Potomac, in honor of the father of his Country, and which every one who venerates the name of Waminaros would rejoice to see completed. After deducting out of the subscription the expenses of the Journal proposed to be published, the remaining funds will be faithfully applied, and without reserve, to the purpose indicated. The aid, therefore, of all who are willing to contribute to so patriotic an object, and one so entirely national, is carnestly requested. By subscribing to the Monument, a valuable journal at a low price may be obtained, while it will be doing something, at the same time, towards completing that majestic memorial of the Nation's gratitude.

The Board of Managers recommend Mr. Pickett, formerly Fourth Auditor of the Treasury and Charge d'Affairs to Peru, who proposes to edit and publish the Monument yill be also and the soic and the services. They saure their follow-citizens that this enterprise is not a speculation you up for individual emolument. Mr. Pickett will make the experiment with his own means and at his own risk: if successful, he will receive nothing more, and he asks nothing more, and he asks nothing more, and he asks nothing more and become of the Monument will be, in any event, applied to the support of the paper, nor the Society in any manner hold pecuniarily responsible.

Those who are disposed to patronise the MONDMENT are requested to forward their names to the General Agent, without delay. The first number will be published early in May, and the second on the second day of August, and reachly therefore. may, and the second on the second day of August, and weekly thereafter; time being allowed for the Prospectus to be circulated, and for the agents to make returns. As all subscribers will be contributors to the Monument itself, their names will be published in the paper.

tember 19, 1848.

THE distinguising merits of this Apparatus are—

Ist. The astonishing rapidity of the process, surpassing belief—hence the name.

2d. The Cream diviring the progress of freezing becomes charged with aimosphericalr, by which it nearly doubles in bulk, and obtains that peculiar smoothness, lightness, and deliency of flavor, for which the Ice Cream of our best Confectioners is so highly prized.

3d. It does not require a tenth part of the labor that the common Freezer does.

4th. It does its work better, producing a better article, in every respect, than by any other mode.

5th. There is a considerable saving in ice, as the tub needs no replenishing during the operation.

The annexed testimonial from the Proprietor of the Eutaw House will pet to rest all doubt.

"Having witnessed the process of freezing Ice Cream in Austin's Magic Freezer, two quarts of Oream having been frozen in the incredible short time of air minutes, I cheerfully recommend it to the public."

FHILOSOPHICAL APPARATUS.

The College is provided with a Philosophical Apparatus that furnishes ample means of experimental illustration in all the different branches of Natural Philosophy. The sum of three thousand dollars has recently been expended, partly in this country and partly in London and Paris, in the purchase of new apparatus, adapted to the present advanced state of the Physical Sciences.

EXAMINATIONS.

At the close of each study, or branch of study, the members of the class are carefully examined, and, at the close of the year, in all the studies of the year, in the presence of a Committee of the Trustees; and their attainments are communicated to the Board of Trustees.

RELIGIOUS INSTRUCTION. RELIGIOUS INSTRUCTION.

In addition to daily morning and evening prayer, divine worship is held twice on every Bunday, and the recitation on Monday morning is always in the Greek Testament. At the request of his parent or guardian, a student is permitted to attend any place of worship which himself or the parent or guardian may select. One member of the Faculty will attend at each of the different places of worship (Presbyterian, Episcopalian, and Methodist) in the village, and note all absentees.

Two at least of the Professors, with their families, will reside in the College buildings, and will board at a common table with the students, who are required to occupy such rooms as may be assigned them by the Faculty.

ADMISSION.

In order to admission to pursue the entire course, a student must be at least fourteen years of age; must give satisfactory evidence of good moral character; and must sustain an examination in the following studies, viz:

Arithmetic, Elements of Algebra, Latin and Greek Grammar, Jacob's or Felton's Greek Reader, and the first two books of Xenophon's Anabasis, Jacob's or Deoring's Latin Reader, Sallust or Cæsar, Cicero's Select Orations, and Virgil, or what shall be deemed equivalent.

Newark Academy.

Newark Academy.

By a late re-organization of this department of Delaware College, the Board of Trustees have taken measures to place it upon a new and improved foundation, and to endow it with advantages possessed by few similar institutions in the country. The Academy, heretofore merged in the College, and of course subjected to all the evils which have been found to attend the amalgamation of the two departments in the same building, and under the same government, now enjoys the privilege of a separate establishment, without losing those which result from its relation to the College proper.

A large and elegant edifice, with all the necessary fixtures of a coinplete boarding establishment, has been erocted and furnished, in which the students of the Academy board, under the immediate charge of the Principal and his Assistants; and all its exercises are conducted on a system of its own, uninterrupted by the interests or operations of the other department. The furniture of the study-rooms and dermitories has been chosen with peculiar reference to comfort and convenience for study; and no expense has been spared in providing the apparatus necessary to render the means of instruction complete; giving to Newark Academy facilities for private study and comfortable accommodation of students, fully equal to those afforded by many of our colleges.

From its intimate relation to the College, students of the Academy enjoy many, advantages not generally obtained at institutions of this kind. Those who wish to pursue some particular branch which falls more properly within the College classes. Students also of proper age and discretion, by recommendation of the Principal, and permission of the Eaculty, may enjoy the use of the College lasses. Brudents also of proper age and discretion, by recommendation of the Principal, and permission of the Eaculty, may enjoy the use of the College lasses. Brudents also of proper age and discretion is precommendation of the Principal, and permission of the Eaculty, may enjoy the use of

the College as can be profitably enjoyed by arademical students.

The charge for Boarding, Washing, Fuel, Light, &c., with tuition in the English, Latin, and Greek, is beventy dollars for the Summer Session, and seventy-five for the Winter Session. The only extres are one dollar per session for incidental expenses, and a fee of sight dollars for Modern Languages, and a fee of five dollars for Drawing, from these who sater these classes. The sessions and vacations of the Preparatory Department are the same as those of the College. Bor. MATTHEW MEIGH, A. M.,

WILMINGTON BOARDING SCHOOL

FOR BOYS.—This institution is situated in one of this healthiest parts of the city of Wilmington, entirely beyond the settled portions of the town. The uniform healthfulness of the location may be inferred from the fact that, since the establishment of the School, about twenty-eight years, very few cases of serious indisposition have occurred among the pupils, and not a single death either here, or from diseases contracted will beer.

The course of instruction includes, besides the ordinary English branches, Natural Philosophy, Chemistry, Physiology, History, Rhetoric, the various branches of Mathematics, and the Latin, Greek, and Ermeh has aganges. Particular attention is paid to this higher Mathematics and their sphication to Mechanics and Engineering; the latter and Surveying are taught practically by field operations, with the use of appropriate instruments. Lectures on Natural Philosophy and Chemistry, in which all the important principles are illustrated by experiments, are regularly delivered before the students.

As the object is to make the instruction as thorough and practical as possible, no expense has been spared in providing suitable apparatus. It is believed that, in this respect, the institution will compare favorably with any similar one in the country. A carefully selected library, of more than one thousand volumes, containing works on the various branches of Literature and Science, farnishes ample reading matter; while a Laboratory, fully supplied with apparatus mad tests, contains all that is necessary for practical instruction in Chemical Manipulation.

The school year commenced on the third Second-day (Monday) of the Ninth month, (September,) and is divided into four quarters of eleven weeks each, leaving a vacation of two months, from about the middle of the Sevent month (July).

THE TESTIMONY OF ONE OF OUR LAWYERS.—

TMT.JAS. L. HAMILTON.—DEAR Sin: Although the number and respectability of the testimonials of which you are already in possession, as to the efficacy of your Medicine. "THE OREAT VA. REMEDY." in the diseases which it is designed to cure, are sufficient, in my opinion to establish its reputation, and secure for it such patromage as will adequately reward you for the discovery of so inestimable a Medicine—yet the great benefit which I have derived from its use, and the salutary effects which I have derived from its use, and the salutary effects which I have derived from its use as you may think proper to make of it, this formal acknowledgment of its sanitary virtues. My own case was Dyspepsia of long duration, and very sugreavated in its character, manifested by an almost total destruction of the digestive functions, great debility, nervousness, emaciation, and impaired appetite, with pain, and a burning sensation in the left side of the chest, palpitation of the heart, vertigo and congestion in the head, and many other symptoms indicative of the worst type of the disease, by the use of three or four bottles of your preparation, been entirely relieved. The cases of my friends, in which your Medicine was taken, were Dyspepsia, Chrenic Headache, and Sore Throat, in all of which it proved efficacious, after the trial of a vact number of other remedies without benefit. Your medicine is as pleasant to the taste as a cordial, and in my experience corrects all derangement of the stomach, restores the wasted or enfectled energies of the digestive organs, and imparts strength unteremination to the whole system.

Very respectfully, yours, &c.

VALUABLE LAW BOOKS.

WE invite the attention of the Profession, and other-desiring Law Books, to our very extensive stock which, we believe, contains the best assortment of American Publications in the United States. Particular attention given to furnishing or completing Libraries for the Departments, Associations, and States.

Orders by mail promptly and carefully executed.

English Common Law Reports,

English Common Law Reports,

58 Folumes, with a complete Index to the first 47 Volumes.

Since volume 39 of this series, The English Common Law
Reports have been reprinted in full. With volume 44, we
commenced binding each English volume separately, instead of, as formerly, two English in one American volume.

Price—For the first 43 vols., \$3.50 per vol.

For the succeeding, 2.50 vol.

The reputation which these Reports maintain in England and in the United States is known to all the Profession. The low price at which they are offered, compared
with the rates of some of the principal American Reports,
of even inferior merit, recommends them particularly to
the attention of those purchasing Libraries.

A General Index to the first 47 Vols. of the Eng lish Common Law Reports.

lish Common Law Reports.

By Hon. George Sharswood and George W. Biddle, Regirs. 1 vol. 870.—\$5 00.

With this Key to their contents, the English Common Law Reports present to the Profession a mass of legal learning in the shape of Opinions, Data, elaborate Arguments, &c., &c., sufficient, probably, for the Elucidation and Prosecution or Defence of any case that can arise in our Courts of Law; and being thus made easily and instantly accessible, these Reports will be found so comprehensive, convenient, and cheap, as to supersede the necessity of other or more expensive scales.

The Index will be found of great value to all possessing the Reports; and of great convenience to those having access to, but not owning the series.

New English Exchequer Reports-Pleas and

New English Exchequer Reports—Pleas and Equity.

To be reprinted in full, in best style, with American Notes, by J. I. Clark Harr and H. B. Wallace, Esqrs, at \$2 50 per vol., bound.
Including McClelland and Younge, Younge and Jervis, Crompton and Jervis, Crompton and Meeson, Crompton, Meeson and Roscoe, Meeson and Younge and Collyer—in Equity.

Meeson and Welsby, in 19 vols., Welsby, Hurlstone and Gordon, vol. 1, published and ready for delivery.

\*\*P We take pleasure in referring to the accompanying letters, explanatory of the character of these Reports, and their value to the Profession in this country:

I scarcely know of any volumes which I dee of more importance or value for a Professional Library. JOSEPH STORY. CAMBRIDGE, January 25, 1845.

Gentlemen: Your letter of the 24th has been received in which you ask my opinion as to the value of the English Exchequer Reports, from Price downwards to this time, to an American Lawyer, and as to the expediency or reprinting them in this country. Of the high value of these Reports, both on the Pleas and Equity sides of the Court, I have not the least doubt—the decisions of this Court for the last fifteen or twenty years, both at Equity and in Common Law, being entitled to equal respect with any others in England. I should think an American Lawyer's Library essentially incomplete without them.

I am, gentlemen, very respectfully yours, SIMON GREENLEAF.

Law Library. Fourth Series-Forty Volumes.

Fourth Series—Forty Volumes.

Twelve Dollars a year, bound—Ten Dollars in Numbers. The cheapest Law Periodical in the United States.
It is our determination to make the law Library the cheapest series of reprints of English Law publications in this country. The Editorial Department will, we trust, be found fully to realize the expectations of those who have enjoyed Smith's Mercantile Law, Touchstone, Broom's Legal Maxims, Archbold's Nisi Prius, Archbold's Landbrd and Tenant, Crabb on Real Proporty, Smith on Contracts. The high reputation which the "Law Library" has acquired throughout the United States, by the character of its volumes, and by the cheap rate at which its valuable contents have been presented to the Profession, is the best evidence we can offer of its merits and its claims for your support. We hope, and will aim, to retain this high character.

FURNISHING MAIL LOCKS AND KEYS.

Post OFFICE DEPARTMENT, March 14, 1851.

I being desirable to substitute locks and keys of some other kind for those now in use for the unit service of the United States, specimen locks and keys, with proposals to furnish the same, will be received and considered at the Post office Department until the first day of July next. The different locks will be submitted to a commission for examination and report. Upon this report, contracts will, as soon as practicable, be entered into for furnishing such locks and keys for four years, with the right on the part of the Postmenter General, for the time being, to extend and continue the seatons. to extend and continue the contract in force for an additional term of four years, by giving to the contractor a written notice to that effect, not more than nine nor less than six months before the termination of the first term

It is, however, proper to state that a lock suitable for the mail service should possess the following qualities, viz: durability, uniformity, lightness, and strength. For the purpose of displacing simultaneously all the mail locks and keys now in use, about thirty thousand new locks and twenty thousand keysadapted thereto will be required to be furnished by the contractor within seven months after the contract shall have been entered into afterwards the annual supply will depend on the durability of the locks and keys adopted, as well as the increase of the mail service; but it will probably never exceed in amount three thousand of the former and one thousand of the latter.

No lock will be considered if it be like any already in general use; nor will any one with whom the contract may be made be allowed to make, sell, or furnish, any lock or key similar to those contracted for for any other purpose or use than that of the Post Office Department.

The kind of lock adopted must be putented, and the partness will be required on entering into contract, to make an assignment of his patient for the exclusive use and benefit of the Department. ASHLAND, 20th July, 1846
Dear Sir: I wish to express to you the gratification lerived on receiving the July number of the Mercha Magazine and Commercial Review, from viewing y portrait in the beginning, and from reading your soint of your friends at the end of it. When we feel under magazine and commercial devices, from the wing your prirate in the beginning, and from reading your addition your friends at the end of it. When we feel under to your friends at the end of it. When we feel under to your friends at the end of it. When we feel under to your friends at the end of it. When we feel under the following the property of them, of their appearance, of the fures of their oppearance, and of the character and hits of their mind, which we can acquire. You have placed your numerous readers (at least you have nie, if I must speak for them) under those obligations; and unmber of your valuable work now before me, in so degree, satisfies the desire to which I have alluded.

I have become quite familiar with the Magazine a Review, and have no hestitation in expressing my hum opinion that it is eminently entitled to the public regular and support. It collects and arranges, in good order, a is amount of valuable statistical and other informating highly useful not only to the merchant, but to the staman, to the cultivator of the earth, to the mariner, in short, to all classes of the business are reading community.

Entertaining this opinion, I am glad that it has been, in ope that it may continue to be, liberally patronized.

Offering you cordial assurances of my esteem and arranger, in an truly your friend and obedient servant, Freeman Hunt, eq.

Extract of a letter from Hon, Millard Fillynore.

"I have read it (Merchants' Magazine) with a g deal of attention, and have no hesitation in saying that think it one of the most valuable periodicals first veer published. To the merchant it seems quite in pensable, and to the statesman and man of general in mation almost equally desirable. It is a grand reposit of useful facts and information, which can be found where so well digested and so accessible as in these in beers. I only regret that I do not own the whole work.
